We are happy to announce an open

PhD position in Differential Geometry

to be filled at the earliest possible date.

The employment is for three years and the position is financed by a standard French governmental grant.

The Project:

- The PhD thesis will be written under the joint supervision of Eric Loubeau (UBO Brest) and Volker Branding (University of Vienna).
- The PhD project will be carried out both at UBO Brest and at the University of Vienna and you will spend time at both universities.
- There are no teaching obligations.

Your Profile:

- You have a Master's degree in mathematics with a specialization in differential geometry and geometric analysis.
- You are fluent both in written and spoken English.
- Ideally, you have some basic knowledge on geometric variational problems such as harmonic maps.

In order to apply for the position please send your CV, certificates of your academic degrees, a letter of motivation and a summary of your master thesis (one page maximum) in a single PDF file via email to both

loubeau@univ-brest.fr and *volker.branding@univie.ac.at.*

Please also arrange for two letters of recommendation to be sent to the same email addresses.

We will review applications continuously until the position is filled.

In case of further questions do not hesitate to contact us via email.
